

The Albany-Capital Region Chapter has several committees that support our membership with programs, resources, and professional development opportunities

Program Committee

This largest committee, headed 2011-2012 program year by Co-Chairs Carol Diotte and Margaret Narins, has responsibility for selecting and making all arrangements for our educational programs throughout the year. They recruit speakers, get meeting rooms, arrange for refreshments, and make sure the programs are well publicized.

Professional Development

This committee, chaired by Joe Giannini, looks for more formal educational opportunities, how to get certifications, continuing education credits, etc., and passes the info on to our members.

Membership

The membership committee, chaired by Jason Willis, maintains records on our membership, collects membership dues, recruits new members, and sends out renewal notices to current members.

Communications

Responsible for maintaining the Chapter web-site, Chair Patricia Baugh develops flyers and other marketing tools, providing the face of the Chapter to the public, and keeping members, prospective members, and potential program attendees informed about events and happenings. Be sure to let her know if you have anything to add! Patricia.Baugh@cs.state.ny.us
